Index to Volume 14

Spring, pp. 1–62; Summer, pp. 63–124; Fall, pp. 125–186; Fall Supplement, pp. 1–36; Winter, pp. 187–264.

SUBJECTS

Adams, Robert C. (editorial), 63
African American(s), clinical trial participation of, 88
  pain management of, 168
Age factor(s), elderly, education and prevention program for, 104
Alaska Natives, health status of, 23
Alternative therapy(ies), impact of knowledge of, 164
Ambulatory setting(s), teaching oncology in, 219
American Association for Cancer Education, activities update (editorial), 63
  Cancer Education Evaluation and Methods (section report), 65
  Dental Oncology (section report), 6
  goals and challenges of (editorial), 1
  information about (president's report), 4
  International Cancer Education (section report), 65
  opportunities for (president's report), 191
  Palliative Cancer Education (section report), 5
  Palliative Cancer Education Section (editorial), 126
  Predoctoral Cancer Education (section report), 192
  Public and Patient Education (section report), 6
  33rd annual meeting of (editorial), 187
  33rd annual meeting of, abstracts (Fall issue supplement), 9–32
  33rd annual meeting of, program, 180
  33rd annual meeting of, program (Fall issue supplement), 1–8
  Undergraduate Cancer Education (section report), 65
American Indian(s), health status of, 23
  pain control in, 28
  tobacco use epidemiology in, 34
Attitude(s), of students, towards prevention and detection, 72

Bad news, communication of, teaching of, 13
Begg, Lisa (news), 56
Book reviews, 120, 178
Breast cancer, genetic testing for, risk beliefs and participation in, 99

Cambodian women, cervical cancer screening video for, 109
Cancer(s), *see also* specific cancers
  detection of, students' knowledge, attitudes, skills, and practices, 72
Cancer control, research training in, for Native researchers, 233
Cancer control activity(ies), in Native populations, 23
Cancer curriculum(a), *see* Curriculum(a)
Cancer education program(s), hospital-based, 47
Cancer pain, *see under* Pain
Cancer pattern(s), in Native populations, 23
Cancer prevention, *see* Prevention
Cancer survivor(s), as standardized patients, 67
CD-ROM, for pain management instruction, 161
Cervical cancer, screening video for Cambodian women, 109
Chemoprevention trial(s), perceived benefits of and barriers to, 83
  social factors in participation decisions, 88
Chemotherapy recipient(s), information packets for, 96
Clinical trial(s), participants' perceptions of benefits of and barriers to, 83
  participation decisions for, social factors in, 88
  support for, with managed care, 93
Collaboration, in community health project, 47
Colon cancer, chemoprevention trials, perceived benefits of, 83
Communication, of bad news, teaching of, 13
Community health nursing course(s), cancer risk assessment in, 47
Complementary therapy(ies), impact of knowledge of, 164
Consultation(s), sought by prostate cancer patients, 243
Continuing education, in nonpharmacologic pain management, 164
Cost constraint(s), and culturally responsive care, 148
Counseling, of relatives, risk beliefs and participation in, 99
Cultural factor(s), video for Cambodian women, 109
  in pain control in American Indians, 28
  in pain management education, 168
Culturally responsive care, in cost-constrained system, 148
Curriculum(a), in dental schools, 8
  hospice, graduates' assessments of impact of, 144
  hospice, and palliative care training in, 132
  hospice, rotation for third-year students, 140
  in medical schools, 214
  for Native researchers' training, 233
  in pain management, guidelines for, 208
  palliative care, graduates' assessments of impact of, 144
  palliative care, rotation for third-year students, 140
  prevention education in medical schools, 214
  research, for Native researchers, 233

Database(s), PDQ/PIF, awareness and use enhancement, 78
Dental school(s), cancer curricula in, 8
Dentist(s), in Spain, cancer knowledge of (letter), 175
Doctor–patient relationship (reflections), 174
Dying patient(s), student experiences with in Oregon, 137

Economics, cost constraints and culturally responsive care, 148
Education, *see also* Patient education; Instruction; Training
  essentials in (Haagedoorn lecture), 198; response, 203
  law and medicine approaches to (reflections), 254
  in oral oncology, status of, 8
  for pain management, guidelines for, 208
  undergraduate, in Greece, 223
Edwards Achievement Medal, 1999 award, 190
Elderly, education and prevention program for, 104
Employee-focused program(s), for education and screening, 47
End-of-life care, quality-of-life assessment teaching module for, 129
  training modules for, 154
Epidemiology, of tobacco use by American Indians, 34
Ethnicity, African Americans, pain management of, 168
  Alaska Natives, health status of, 23
  American Indians, health status of, 23
  American Indians, pain control in, 28
  Hispanics, pain management of, 168
  Native researchers, training for, 233
  pain management differences according to, 168
European Association for Cancer Education, activities update (editorial), 63
  12th annual meeting of, program, 54
Foley, John T. (Edwards medal), 190

Gender factor(s), men's preferences for information sources, 238
General practitioner(s), palliative care workshop for, 18
Genetic testing, risk beliefs and participation in, 99
Greece, undergraduate oncology education in, 223
Gynecologic cancer(s), patient information needs with, 41

Haagedoorn, Milly, contributions of (Haagedoorn lecture), 198; response, 203
Head and neck oncology, multidisciplinary workshop in, 228
Health plan(s), and clinical trial support, 93

Hispanic(s), pain management of, 168
Home hospice, and cancer education (editorial), 125
Hospice, and cancer education (editorial), 125
medical school experience in, physicians' assessments of, 144
rotation in for third-year students, 140
training in, at University of Maryland, 132
Hospital employee(s), cancer risk status assessment of, 47
Humanistic skill(s), in bad-news delivery, 13

Informatics, PDQ/PIF awareness and use enhancement, 78
Information, sources of, men's preferences for, 238
sources of, sought by prostate cancer patients, 243
Information need(s), of patients, pre-visit questionnaire addressing, 248
of patients, in support group, 41
Information packet(s), for chemotherapy recipients, 96
Instruction module(s), cancer survivors as SPs in, 67
for pain management, 161
Interdisciplinary team(s), in hospice and palliative care training, 132
in palliative care training modules, 154

Knowledge, narrative, importance of (editorial), 188
students', of prevention and detection skills, 72

Learning effect(s), of palliative care workshop for GPs, 18
Legal profession, and medicine, joint lessons (reflections), 254
Lumbee Indians, 34

Managed care, and clinical trial support, 93
Medical school(s), prevention education in, 214
Medical School Objectives Project (editorial), 2
Medical student(s), *see* Student(s)
Men, information source preferences of, 238
support source preferences of, 238
Multiculturalism, and training of health professionals, 148
Multidisciplinary workshop(s), to teach head and neck oncology to residents, 228
Multimedia module(s), for pain management, 161
Music therapy, for women with cancer, 115

Narrative knowledge, importance of (editorial), 188
National Cancer Institute, grant program of (from the NCI), 194
update on (editorial), 63
Native population(s), cancer incidences and mortality in, 23
cancer pain management in, 28
tobacco use epidemiology in, 34
Native researcher(s), cancer control research training for, 233
Needs-assessment questionnaire, 248
Nurse educator(s), pain management education guidelines for, 208
Nursing, cost constraints and cultural responsiveness of, 148
pain management role of, 208
Nursing student(s), community health project of, 47

Oncology Nursing Society (special communication), 196
Oral oncology education, status of, 8
Oregon Health Sciences University, 137
Outpatient clinic(s), student-staffed, oncology teaching in, 219

Pain, management of, in American Indians, 28
management of, cultural considerations in education for, 168
management of, multimedia module for, 161
management of, nonpharmacologic strategies for, 164
management of, nurse educator education guidelines for, 208
Palliation, symposium on, 129
Palliative care, medical school experience in, assessments of, 144
rotation in, for third-year students, 140
training in, at University of Maryland, 132
Palliative care education, attaining goals of (guest editorial), 127
didactic and experiential approach to, 154
Palliative care nurse(s), cost constraints and responsiveness of, 148
Palliative care workshop(s), for GPs, 18
Pap testing, video of for Cambodian women, 109
Patient(s), deaths of, student experiences with in Oregon, 137
information needs of, pre-visit questionnaire addressing, 248
questions of in support group, 41
survivors of cancer as standardized patients, 67
Patient education, information packets for, 96
videos for, using digital imagery, 204
Patient information file(s), project to increase awareness and use of, 78
Patient information packet(s), for chemotherapy recipients, 96
Patient preference(s), of men, for information and support sources, 238
Patient support, sources of, men's preferences for, 238
Physician(s), support for and rewards of (reflections), 52
Physician Data Query, project to increase awareness and use of, 78
Prevention, chemoprevention trial participation decisions, 88
chemoprevention trial perceived benefits and barriers, 83
education in, in medical schools, 214
research training in, for Native researchers, 233
students' knowledge, attitudes, skills, and practices, 72
Pre-visit questionnaire(s), to address patients' information needs, 248
Profession(s), law and medicine, joint lessons (reflections), 254
Prostate cancer, chemoprevention trials, social factors in participation decisions, 88
information sources sought by patients with, 243
Psychosocial therapy(ies), impact of knowledge of, 164
Public education, program for elderly, 104
Public health, surveillance data for Native populations, 23

Quality-of-life assessment(s), of terminal patients, 129
Question(s), of patients in support group, 41
Questionnaire(s), for patients' information needs, 248

Race, African Americans, clinical trial participation of, 88
Radiotherapy, patient education video for, 204
Relative(s), questions of in support group, 41
risk beliefs of and interest in risk counseling, 99
Research, support for, with managed care, 93
Research training, cancer control, for Native researchers, 233
Resident(s), head and neck oncology workshop for, 228
Risk assessment(s), in community health nursing course, 47
Risk belief(s), and interest in risk counseling, 99
Risk counseling, of relatives, risk beliefs and participation in, 99
Risk reduction, education program for elderly, 104
Risk status, of hospital employees, 47

Screening, cervical cancer video for Cambodian women, 109
of hospital employees for cancer risks, 47
of relatives, risk beliefs and participation in, 99
Skill(s), detection, of medical students, 72
prevention, of medical students, 72
Skills training, for bad-news delivery, 13
Smokeless tobacco use, among Lumbee Indians, 34
Smoking, among Lumbee Indians, 34
Smoking cessation counseling, in Turkey (letter), 175
Social factor(s), in chemoprevention trial participation decisions, 88
Standardized patient(s), cancer survivors as, 67
Story(ies), function of (editorial), 188
Structured clinical instruction module(s), cancer survivors as SPs in, 67
Student(s), detection knowledge, attitudes, skills, and practices of, 72
prevention knowledge, attitudes, skills, and practices of, 72
Student-staffed outpatient clinic, teaching in, 219
Support group(s), questions of patients and relatives in, 41
Survivor(s), of cancer, as standardized patients, 67

Teaching, of humanistic skills, 13
in student-staffed outpatient clinic, 219
Teaching module(s), for terminal quality-of-life assessment, 129

Terminal patient(s), quality-of-life assessment teaching module for, 129
student experiences with in Oregon, 137
Tobacco use, of Lumbee Indians, 34
Training, cancer control, for Native researchers, 233
hospice, student program for, 132
for multicultural patient care, 148
in palliative care, student program for, 132
Training module(s), in palliative care, 154
Treatment decision(s), of prostate cancer patients, 243
Trial(s), participants' perceptions of benefits of and barriers to, 83
participation decisions for, social factors in, 88
support for, with managed care, 93

University of Maryland, 132
Utilization, of medical services, by men, 238

Veteran(s), information packets for, 96
Video(s), for cervical cancer screening of Cambodian women, 109
patient education, using digital imagery, 204
production of, low-cost, 204

Work-classification system(s), culturally responsive care in, 148
Workshop(s), multidisciplinary, to teach head and neck oncology to residents, 228
